Konya has 9 industrial zones, 38 industrial sites, 14 private industrial estates, a total of 149.346 public property of 8,6 billion m², and private industrial areas. A significant amount of domestic and leading machinery manufacturers are located in Konya.

These companies manufacture welding machines, compressors, guillotine shears and presses; and also engine reconditioning machines, drills and metalprocessing machineries. Therefore, these facts make Konya an ideal city for industrial investments.

Konya holds 45% of the metal processing market in Turkey. The 90% of tractor components and nearly all of the components and spare parts of agricultural machineries can be produced in the city. Konya holds 65% of market share in the domestic tractor production. More than 70% of various automotive spare parts and equipment for a wide range of car brands and models can be produced in Konya. 450 companies in the metal casting industry in the city produce with a capacity of 250,000 tons per year. An equal amount of 18% of the metal casting production in Turkey.
